EDUCATION

University of South Carolina | Columbia, SC
Bachelor of Science in Computer Science | GPA: 3.69/4.00

May 2025

TECHNICAL SKILLS

Languages: Java, C++, C#, Kotlin, Python, JavaScript, HTML/CSS, MySQL

Frameworks/Libraries: React Native, Jetpack Compose, Firebase

Tools/Other: Android Studio, Unity, Unreal Engine, Blender, Git, Figma, Pixel art, 3D/2D animation, Video editing

PROJECTS

[Liftly](#)

React Native, Firebase

- Designed, developed, and published a cross-platform workout logging app to the Apple and Android app stores, now serving 4,000+ users
- Built a custom UI in React Native that provides real-time visual feedback on muscle group intensity, improving user engagement and workout tracking accuracy
- Integrated Firebase Authentication and Firestore for data sync, enabling logging and retrieval of workout history

[Cocky's Way](#) | *Capstone Project*

React Native, Firebase

- Developed an Android app to help students navigate campus, find professor information, and build class schedules
- Implemented Google Maps API integration for directions, route history saving, and an interactive tutorial
- Collaborated with a team to ensure seamless functionality and user experience

[Forgotten](#)

Unreal Engine 5, Blueprints

- A 3D Souls-like action game with dodge mechanics, enemy AI, and a boss fight
- Created all model and animation assets

[Frogbound](#)

Unity Engine, C#

- A 2D pixel-art Metroidvania with exploration, upgrades, and combat systems
- Created all art and animation assets

EXPERIENCE

Publix | Greenville, SC

Grocery Replenishment Specialist

August 2025 - Present

- Stock and organize grocery shelves while maintaining store appearance standards and providing excellent customer service

Simpsonville Elementary | Simpsonville, SC

After-school Caregiver

Oct 21 - May 22, Jan 23 – May 23

- Led aftercare classes, created activities, and communicated effectively with colleagues
